

# Election Security Seals

Where are they? In the Red Security Bag. Your Roamer will have extras if you run out.

**Tamper Tape:** Generally used over keyholes. Examples of use:

- Over the keyholes of the compartments that hold the Scanning Unit memory sticks
- Over the keyhole of the Ballot Marking Device power compartment
- Over the keyholes of the Blue Ballot Transfer Bins on Monday night after the ballots are counted. (Sealed bins will go in the Precinct Cart overnight.)

**Long Tail Security seal:** used when the small round top security seal is not big enough to do the job. Examples of use:

- Securing the Blue Transfer Ballot Bins when they are full or at the end of the election.
- Securing the Ballot Boxes on the Scanning Unit.

**Security Bag seal:** used to seal Red and Black Memory Stick Security Bags.

Seal goes into small holes in closed zipper.

Seal almost inserted into small holes.

Seal in closed position

**Small Round Top Security seal:** used to ensure secure closure of Pollbook cases, red bag, orange bag, orange ballot transfer bag.

**Small Square seal:** used only to secure the memory compartments of Pollbooks. Do not break or remove.
